

QUESTION_SUBJECT	QUESTION_TEXT	ANSWER_TEXT
Clarifications - Funding	The Scope of work notes "RWPB will contribute 100% of the premium" however the Goals and objectives note the program is voluntary and paid by the RWPB recipient. Please confirm/clarify.	Nevada Ryan White clients are not automatically eligible for dental insurance. They can chose not to participate. If they have comprehensive dental insurance, such as an insurance plan through an employer, they are also not eligible for Ryan White dental insurance. RWPB will pay the premium for clients that do qualify.
Clarification - Funding	The Goals and Objectives note this is a fully insured dental plan; however, section 2.4.2 notes it's a self-funded plan. Please clarify.	Self-Funded, in this case, means funded purely by Nevada Ryan White Part B. The program will self-fund the premium payments and not require any premium payments from clients.
Coordination of benefits	Is the dental plan for coordination purposes only paying the cost share left over from a primary coverage? Clarify 1.4 of the Scope of work please.	This plan will act as the primary coverage. Clients that have existing comprehensive coverage are not eligible for Nevada Ryan White Part B dental coverage. The plan is designed to cover costs of covered services. Non-covered services, or dental work that exceeds services covered, will be the responsibility of the client to cover with potential assistance from RWPB.
Current Plan	Is this an enforce plan today or a new plan offering? If inforce today, who is the current carrier?	Nevada Ryan White Part B has an active insurance plan in place that is carried by Liberty Dental.
Claims Experience	If this is an inforce plan today, and you are requesting a fully-insured quote, can you provide claims experience and membership by month for the most recent rolling 12 months?	Due to PII and HIPAA concerns the most we can provide is monthly client counts, or the average of 2175 clients, for the last 12 months.
Fully-insured or Self-funded	Can you please confirm if the request for Ryan White is for a self-funed contract or fully-insured? There seems to be some contradicting information and wanted to clarify.	Self-funded means that all premiums will be paid by Nevada Ryan White Part B to provide fully-insured coverage for eligible Nevada Ryan White clients. Fully insured does not mean every possible procedure is covered, just that the carrier will cover all costs for procedures that are covered.
Voluntary or Employer-Sponsored	Can you confirm that the plan offered will be 100% voluntary or does the State plan to fund 100% of the dental plan for Ryan White members for 1/1/2025?	Nevada Ryan White clients are not automatically eligible for dental insurance. They can chose not to participate. If they have comprehensive dental insurance, such as an insurance plan through an employer, they are also not eligible for Ryan White dental. Nevada Ryan White Part B will pay for all client premiums as of the start of the contract.
Plan design, rates, experience,census	If a carrier cannot offer a dental PPO plan with no annual maximum, would you consider a DHMO plan? Will you be able to provide the current rates,census with enrollment, dental plan details,and dental experience for the past 12 months?	The current plan is an EPO plan that offers DHMO benefits without requiring a provider assignment. The coverage included can be found in Attachment J Dental Services. The current rate is \$9.71 per client received by the current carrier with an average of 2175 clients served over the last 12 months.
Minimum enrollment requirements	Will carriers be disqualified if they included a minimum enrollment requirement?	Section 2.9.4.4 of the Agency RFP Template states that no plan with a minimum participation requirement will be allowed by RWPB.
